

E1
Contd
treatment of keratoconjunctivitis, phlyctenular
keratitis, or corneal infiltration.

Please amend claim 17 as follows:

E2
17. (Twice Amended) The method of Claim 15
wherein the inhibition of the Langerhans cell migration
results in the prevention of treatment of
keratoconjunctivitis.

Please amend claim 19 as follows:

E3
Sub F1
19. (Twice Amended) The method of Claim 15
wherein the inhibition of the Langerhans cell migration
results in phlyctenular keratitis or corneal
infiltration.

[Please amend claim 20 as follows:]

20. (Twice Amended) The method of Claim 15
wherein the inhibitor prevents and/or treats an ocular
inflammation wherein the inhibition of the Langerhans
cell migration results in the prevention or treatment of
an ocular inflammation by inhibiting the production of
interleukin-1 in corneal epithelial
cells.
